

For users with lower volume requirements, the **SmartSource Value series** shares the same smart common platform and provides these features:

- 30 dpm processing throughput
- Single item feed and pocket
- Front and rear image capture
- Multiple image renditions
- One to four line endorsement

Burroughs SmartSource™ Value series

You have evolving demands; we have a common platform to meet them. Burroughs, known for item processing quality and reliability for over 50 years, now provides the Burroughs SmartSource™ series. Based upon a common platform, the SmartSource series is driven by the powerful Burroughs Device Suite, a web-based interface for all distributed capture devices offered by Burroughs.

A common platform standardizes the development of application software, user training, technical help desk and supplies management – streamlining operations and improving efficiency. This common support infrastructure provides the foundation for introducing or expanding your remote deposit capture environment. Our multiple devices and variety of configurations allow you to meet your unique processing needs - creating a competitive advantage that is vital in today's business environment.

SmartSource Value series

The **Value series** makes it easy and affordable to convert to image-based remote deposit capture. This entry level device provides all the functionality needed for low-volume item capture – it's the perfect solution for customers who do not anticipate increased performance requirements.

SmartSource Value series specifications

Document Processing Throughput

Document throughput of 30 documents per minute (dpm)

Dimensions

Length: 10.5 in (26.7 cm) Depth: 5.99 in (16.0 cm) Height: 7.0 in (17.8 cm)

Weight

Installed weight: 6.5 lbs. (3.0 kg)

Power supply 0.75 lbs. (0.34 kg)

Power Requirements

100-240 VAC @ 50/60 Hz

Document Hopper

Single item

Document Feeder

Single document feed

Certifications

CE, UL/TUV, CSA, RoHS, VCCI, Energy Star, FCC Class B

Magnetic Ink Character Recognition (MICR)

E13B and CMC7 read with auto-detect

SmartSource Value series specifications

Document Sizes

Document size

- Height (min./max.): 2.50 to 4.25 inches (6.35 to 10.80 cm)
- Length (min./max.): 4.50 to 9.25 inches (11.4 to 23.5 cm)

Document Height-to-Length ratio

- Minimum aspect ratio: 1.50

Document weight

- Paper weight, nominal: 20 to 24 lb
- 20 lb. long grain (75 gr/m2)

Image Capture

Front and rear image capture at 300 dots per inch (dpi)

Two (2) color images or a combination of up to three (3) bi-tonal and gray scale images

Image renditions available

- Bi-tonal (black/white)
- Gray level (256 gray shades)
- 24 lb. short or long grain (90 gr/m2) - Color (24-bit, RGB)

Image resolutions available

- 300 dpi, color only
- 240, 200 dpi, gray level or bi-tonal
- 120, 100 dpi, gray level

Image Compression Standards

- CCITT Group 4 (bi-tonal images)
- JPEG Baseline (gray level images)
- Uncompressed 24-bit, RGB pixel data (color images)

Communication Interface

USB 2.0 high-speed

Operating Systems

- Microsoft VISTA Business
- Microsoft Windows XP Professional SP2

Optical Character Recognition (OCR)

- OCR-A, OCR-B and E13B fonts supported
- Two (2) 0.50 inch OCR scan bands provided
- 96 characters per scan band
- MICR/OCR combine read

Operator Interface

- Power switch
- Light Emitting Diode (LED)
- Three (3) LED status lights

Endorsement

- Rear Endorser
- Ink jet print cartridge (600 dpi)
- Four (4) line endorsement, 10 characters per inch
- Two (2) vertical endorsement locations, manually selected by operator allows eight (8) single-line vertical endorsement locations
- Graphics capable for logos and signatures
- Three (3) levels of print quality (economy, standard, or premium)
- Programmatically controllable based on MICR and/or OCR read

Application Programming Interfaces (API)

- Device Suite Pro or Standard
- API Emulation Single item

Output Pockets

- Single pocket
- Single item

Take the smart step.
