

CR2 Professional Bill Counter

UniLink™

High accuracy and reliability

Counterfeit banknotes are an ever present reality. In USA alone, circulation of counterfeit notes has doubled in the last five years. To detect and prevent these counterfeits from entering circulation, you need a machine that is up to the task. CR2 comes with a full range of function that can be tailored to customers' needs.

Counterfeit Detection

CR2 features state-of-the-art technology to identify counterfeits. The machine has full package counterfeit detection - Ultra-violet, Magnetic, and Infra-red detection functions.

Proven track record worldwide

CR2 works with USD, Canadian Dollar, Euro, and many other currencies (optional). CR2 Cash Counter has successfully passed testing at several major US and international banks. The machine comes with complimentary 1 year warranty (2 years in certain markets).

Easy updates with PC cable connection
