Dell

OptiPlex 9010 Small Form Factor

Work efficiently with the OptiPlex 9010 desktop, featuring premier performance, flexibility and connectivity to help your business succeed.

Grow your business with high-end performance from a slim PC with enhanced processing power.

Take control of your desktop.

Operating system

Available with Windows 8 Pro.

Achieve High Performance

Harness Intel® Core™ i5 or Intel® Core™ i7 processor, with an automatic burst of speed when needed from Intel® Turbo Boost Technology 2.0. Plus you'll enjoy the ample storage, high-bandwidth memory and powerful discrete graphics options of the OptiPlex 9010.

Experience workplace convenience and versatility

Work comfortably with a system that enables you to customize your workspace with intuitive design, multiple display options and flexible configurations for your peripherals.

Easy collaboration promotes success

Collaborate and share data through voice over IP (VoIP)2 and Microsoft® Lync.

Business-class control

Effective management of your office environment is within reach. The OptiPlex 9010 enables IT administrators to take total control over system management and security protocols, and offers the stability needed to effectively plan for the future.

Efficiently manage your desktop fleet.

Achieve unprecedented IT control in your workplace. Intel® vPro™ remote out-of-band management, image sharing between desktops and Dell's remote BIOS management functionality help increase IT efficiency.

Ensure data security across your organization.

Help protect your critical data and meet compliance standards with Dell Data Protection and Trusted Platform Module (TPM) encrypted hard drives and other security features.

Enjoy the peace of mind provided by business-class stability and support.

As your business grows, hardware stability and support are the key to budget management and forecasting long-term needs. Help IT focus on the most important projects with Dell ProSupport™ and Dell Deployment Services.
