IJ6160 INKJET VALIDATION PRINTER

ADDMASTER

- QUIET
- COMPACT
- USER-FRIENDLY
- TROUBLE-FREE
- ENERGY-EFFICIENT

The IJ6160 validation printer is the most compact and easy to use teller printer of its kind. Only 39 square inches, the IJ6160 handles a variety of bank forms which drop in the full-length validation slot with ease. An integrated form rack is provided to keep forms close at hand. An optional form positioning feature controls the location of printing on the form. A long-lasting inkjet print cartridge provides high quality print with consistent contrast. The IJ6160 is intended for banks using cut-form receipts and electronic journaling where a roll-paper receipt or journal tape is not required. The IJ6160 may be configured with both a USB and serial port, or two serial ports.
