IRDPRINT™ RETURN EXPRESS PACK

Rosetta Technologies offers the most efficient and reliable solution for printing on-demand return IRDs in your facility.

Check 21 has had an immense impact on the way financial institutions send negotiable documents back and forth to one another. However, full image enablement is too complex and expensive for most small banks and credit unions. And while 3rd-party processors will print return IRDs for institutions, the process of sorting, matching, and mailing return letters is cumbersome, expensive, and not member-friendly.

Now there is a better way to manage return IRDs: Rosetta Technologies' IRDPrint Returns Express Pack is a pre-packaged solution that includes everything needed for banks and credit unions to quickly and easily print and mail return IRDs on-site, without the need for expensive software or extensive IT support.

The IRDPrint Returns Express Pack simplifies the printing of return IRDs while also allowing institutions to gain control over the process. Each day the IRD files are uploaded to a secure FTP. Each file includes 3-up return IRDs on a single 8 1/2 x 11 sheet. The files are then printed on the MICR laser printer and processed for distribution.

The IRDPrint Returns Express Pack provides many benefits to member credit unions:

- Fast and cost-effective solution for printing return IRDs on-site
- Cuts costs and saves time by eliminating couriers, manual letter processing and postage
- Guaranteed to comply with ANSI IRD standards for image quality and readability
- Solution is scalable, allowing the addition of other MICR print applications such as check issuance, starter checks and loan coupons

The IRDPrint Returns Express Pack includes one of each of the following:

- 30 ppm IRDPrint MICR Laser Printer
- Starter MICR Toner Cartridge
- Ream 24lb. IRD Security Paper
- MICR Gauge
- Printer Setup Guide
- Warranty Registration Card
- 7 X 24 Toll-Free Technical Support
- Three-Year Overnight Advance Exchange Warranty
- Optional: IRDPrint View and Reprint software
