Kodak

i5800 Scanner

Intelligence and power,
on many levels

Height-adjustable
pedestal

Save up to
53% over
5 years*

One-button-easy
task simplification

Up to
210 ppm

Part of the **Kodak** i5000 Series Scanners, the i5800 Scanner delivers up to 210 ppm true performance (with all imaging features enabled), and provides a height-adjustable pedestal, offering the ideal scanning position for every operator.

It's a better, ergonomically correct answer for superior production scanning, featuring **Kodak** Dynamic Flow Technology, our breakthrough digital architecture that delivers optimized memory allocation and processing paths. It's a complete customizable solution aligned with end user business goals – only from Kodak, the high-volume market leader.

Benefit from intelligence and power on many levels —

- > Offers the ideal scanning position for every operator — through a height-adjustable pedestal

- > Finds the fastest way to scan, perform imaging functions, extract data — via **Kodak** Dynamic Flow Technology

- > Saves up to 53% on total cost of ownership — over five years*

- > Makes complex and repeat functions one-button easy — with programmable function keys

- > Significantly reduces document prep and handling times — with problem-free feeding of diverse batches and controlled stacking

- > Improves accuracy with streak filtering — plus all the additional automated image enhancement features of Kodak's Perfect Page technology

- > Achieves greater data integrity for OCR, IDR, validation and other functions — through capture of every bit of information at 600 dpi
