The SP 3500N/3510DN MICR provides small and medium-sized businesses an economical option for a reliable, high-quality MICR printer. With the SP 3500N/3510DN MICR, affordability does not come at the expense of valuable features such as high-speed processing and standard Ethernet connectivity. The SP 3500N/3510DN MICR can tackle all check printing and general office printing by offering users the ability to use standard or MICR toner.

The front-facing design enables any user to quickly replace consumables and the tiltable LCD control panel makes it easy to view system status and access key functions quickly and easily.

ACCESS AND CONTROL FEATURES

REMOTE OVERSIGHT - In distributed print environments, this feature allows administrators to quickly and easily get a glimpse into the status of the printer, identify current firmware versions, and access page counts.

EVENT BASED RULES - This feature is easily configured to notify users or administrators of numerous types of events. Each printer status item can be emailed, including empty toner, paper misfeeds, out of paper, and more.

QUALITY ASSURANCE FEATURES

E-13B FONT - This font was created specifically for the SP 3500N/3510DN MICR printer. The printer specific font ensures the highest achievable readability of MICR characters.

CMC7 FONT - This font was designed specifically for use with Rosetta Technologies' MICR printers to produce the highest achievable readability of MICR characters.

LOW-TONER WARNING - This warning will sense the amount of MICR toner remaining, and then warn the user when levels become low.

OPTIMIZED FUSING & TRANSFER VOLTAGE - This feature will automatically manage the fusing temperature and transfer voltage to eliminate high-speed reader/sorter issues with MICR checks.

MICR QUALITY GUARANTEE - Rosetta Technologies ensures the readability performance of the SP 3500N/3510DN MICR printer when used in conjunction with approved MICR toner and check stock.

ORIGINAL-MANUFACTURED MICR TONER CARTRIDGE - Toner formulation and cartridge design specific to the SP 3500N/3510DN MICR printer engine, ensures high print quality, excellent toner yield, and long fuser life.

The SP 3500N/3510DN MICR work with both MICR and standard cartridges.

MONEY SAVING FEATURES

The SP 3500N MICR printer features a standard 10/100BaseTX Ethernet card that allows multiple authorized users access to the printer, resulting in the reduction of overall printing costs. Both models' fast processors handle large files with ease. This virtually eliminates data bottlenecks and reduces the time necessary to complete every job. An optional paper feed unit is also available for the increased paper input capacities that are required for larger print runs.
