UMS60-HCI
UMS75-HCI

Your Link to Productive Office Communication

Move into the Fast Lane

Put your document workflow in the fast lane with the productivity, versatility and comprehensive security features that are standard on the UMS60/75-HCI devices. Many businesses find that handling documents in both digital and hard copy form – and deciding how best to print, scan, store and send these documents – is the primary office productivity issue they face. The UMS60/75-HCI devices will keep you moving in the fast lane with reliable and professional quality output plus sophisticated document handling and finishing in a single system.

UMS60/75-HCI Benefits

- Impressive productivity

- Highly versatile

- Security

- Ease of use

- Sustainable features

- Device management software

Impressive Productivity

The UMS60/75-HCI multifunctional devices will keep your business moving fast with copy and print performance of 60/75 ppm and standard auto duplex at 100% engine speed. Consistently maintain the pace with a maximum paper capacity of 7,600 sheets and the ability to replenish toner and paper during operation. The powerful 1 GHz processor and 1 GB standard RAM allow fast scanning up to 75 opm. Burroughs proprietary printer drivers will link the high powered Multi-function Printer system to your network and meet your need for outstanding print productivity.

Highly Versatile

The UMS60/75-HCI MFPs provide extensive finishing and paper handling options so you can keep important projects in-house, saving time and money without sacrificing quality. Streamline your process with a multitude of scanning destinations including email, FTP, SMB, USB memory devices and MFP user boxes. Burroughs has maximized the UMS60/75-HCI devices' productivity and versatility with its own proprietary PCL 5e print driver that provides data compression up to CCITT Group 4 standards for Windows environments.

Security

Experience comprehensive security that won't interfere with productivity. The UMS60/75-HCI devices come equipped with a host of standard features such as IPv6 supported network connectivity, LDAP authentication, IP address filtering, SSL encryption, confidential printing, encrypted PDF support, HDD password lock and HDD data erase, all to protect your valuable data.

Ease of Use

The large, easy-to-read, full-color, touchscreen control panel makes communications faster and more accurate. Integrated interactive help screens give users immediate access to information required to perform the task at hand. Thumbnail previews show stored documents prior to printing and programmable shortcut keys for frequently used settings provide effortless operation. Share and use documents easily by scanning to the MFP for printing and sharing on a network or by using the convenient USB memory stick device port to scan-from or print directly to the UMS60/75-HCI MFPs.

Collating, stapling,
hole punching,
transparencies, and labels

Electronic input
Scanned originals, PC,
and USB stick

Electronic output
FTP server,
shared filefolders (SMB),
and email

Sustainable Features

You can feel good about using this highly productive and reliable MFP system knowing it is designed to minimize environmental impact. The UMS60/75-HCI devices meet tough environmental standards, such as Blue Angel, ENERGY STAR® and RoHS. The polymerized toner fuses at a lower temperature, so less toner and less energy is used per printed page. Low-power mode and sleep mode save even more energy, and with a 30 second warm-up time from standby, being good to the environment is good for your productivity. The UMS60/75-HCI MFPs also feature components made with recycled plastic as well as internal toner recycling.

Device Management Software

UMS60/75-HCI features a collection of utilities that help users and administrators gain control of document flow while improving productivity. For fleets large and small, these management software utilities will help maintain standardized, central control and help users store, archive and share documents via their networks.

Standard reversing automatic document feeder
100-sheet capacity feeder supports scanning at up to 75 originals per minute.

Robust security and processing
Embedded features ensure that your confidential data is secure. The device has a standard 1 GB of RAM, 1-GHz processor, 10/100/1000 Base-T Ethernet, 80-GB HDD and Burroughs' proprietary print driver.

Standard auto duplex unit
New technology supports duplex speeds at 100% rated engine speed for maximum productivity.

Full-color LCD operation panel
Swiveling 8.5" full-color LCD touch-screen featuring programmable shortcut keys and document thumb-nail preview.

Standard finisher
3,200 sheet output capacity, 50 sheet stapling, 2 and 3-hole punch.

Standard 4-drawer paper feed cassettes
Up to 3,600-sheet total capacity in sizes ranging from 5.5" x 8.5" to 11" x 17" and media weights from 16 lb bond up to 110 lb index. Input capacity is upgradeable to 7,600 sheets.

Standard bypass tray
100-sheet capacity bypass tray automatically senses paper size and can handle up to 12" x 18" paper.

Standard large capacity tray
Holds up to 4,000 sheets of 8.5" x 11" paper.

For special applications, contact your sales rep to see if additional options are available.

UMS60/75-HCI Specifications

General Features

Type	Black & white laser copier/scanner/printer
Imaging System	Electro photographic laser; polymerized toner
Print/Copy Speed	UMS60-HCI: 60 ppm UMS75-HCI: 75 ppm Auto duplex at full engine speed
First Copy Out Time	UMS60-HCI: 3.5 seconds UMS75-HCI: 3.0 seconds
Copy Quantity	1 to 9,999
Resolution	Copy/scan: 600 x 600 dpi Print: 1200 x 600 dpi equivalent 256 levels grayscale
Standard Document Feeder	100-sheet automatic reversing
Scan Speed	Up to 75 opm B/W at 600 dpi
Duplexing	Standard automatic duplexing
Copy Sizes	Original size: 5.5" x 8.5" to 11" x 17"
Copy Features	Chapter, cover and page insertion Proof copy, adjustment test print Job setting memory (mode memory) Watermark, overlay, stamping, copy protection, n-in 1, edge/frame erase
Standard Paper Supply	3,600 (1 x 1,500 sheet tray, 1 x 1,000 sheet tray, 2 x 500 sheet universal paper trays plus 100-sheet bypass)
Max Paper Capacity	7,600 sheets (with standard 4,000 sheet LCT)
Standard Paper Output	Up to 3,200 sheets with finisher
Standard Interface	Ethernet 10/100/1000BaseT Front-facing USB memory stick port

Standard Memory	1 GB (shared)
Hard Drive Memory	80 GB
Processor	1 GHz multi-tasking controller
Power Requirements	120 V, 16 A, 60 Hz
Power Consumption	Sleep mode: 15 W or less Operation mode: 1920 W maximum
Warm-up Time	4.5 to 5.0 minutes from power on Less than 30 seconds from standby
Dimensions (W x D x H)	Standard configuration: 35" x 34" x 45"
Weight	Standard configuration: 494 lb

Printing

Print Controller	Burroughs print controller
Standard PDLs (emulation)	PCL 5e with data compression CCITT Group 3 and CCITT Group 4
OS Support	Windows® 2000, XP, Server 2003
Network Protocols	TCP/IP, IPX/SPX, NDPS, AppleTalk®, SMB, LPD, IPP, SNMP, HTTP, IPv6
Print Features	- Print from USB memory device - N-up, book copy, insert sheet, cover page - Watermarks, confidential print - Overlay, job control, distribution control number - Mix-plex, mix media, easy-set job programming

Standard Network Scanning

Resolution	600, 400, 300, 200 dpi
Image Formats	TIFF, PDF, Encrypted PDF, XPS
Scan Destinations	Email, FTP, SMB Scan to USB memory stick Network TWAIN Scan to User Box
Protocols	TCP/IP (FTP, SMB, SMTP)
Max Original Size	11" x 17"
One Touch	1,200 destinations (single + group) LDAP support
Programs	400

Environmental Features

- Energy Star compliant
- Intelligent power reduction/shut down
- Fast warm-up time promotes power save mode use
- Organic photo conductor
- Toner save mode

Security Features

- IP address filtering and port blocking
- SSL/TLS encryption
- IPv6 support
- User authentication, authentication log
- Copy protect and secure print
- Encrypted PDF
- Hard disk overwrite (8 standard types)
- Temporary data auto-delete

Paper Handling

50-sheet floor finisher	- Output capacity: non-sort tray 200 sheets; elevator tray 3,000 sheets - Stapling: 50 sheets, multi-position - 2 and 3-hole punch
Large capacity tray - letter	- Type: side mount/below bypass - Paper size: 8.5" x 11"* - Paper capacity: up to 4,000 sheets - Paper weight: 16 lb bond to 110 lb index * Paper sizes must be set by technician; not meant to be universal tray
