- Rechargeable – over 300 scans per charge
- Functional – scan to smartphone, SD card* or USB Flash Drive
- Creates JPG and multi-page PDF files which can be read by any computer

*2GB SD card included

What is mobility?

It means easy-to-use technology that is flexible enough to use anywhere you are, untethered, fully compatible with your world and gear. It means information at your fingertips, integrated devices, small in size, high in performance, all the while being environmentally friendly, affordable and reliable. Until today, scanners have been, at best, portable. They were small and easy to travel with. But now it is time to think about mobile scanners in a whole new way.

Introducing the Xerox Mobile scanner, a truly mobile scanner that lets you scan without a computer, cords or software.

Reliable and easy to use.

The Xerox Mobile Scanner is a mobile, battery operated, cordless scanner. Simply turn it on, select a file format (color PDF, back and white PDF or color JPG), and insert your document. With AutoLaunch technology, scanning begins as soon as documents are inserted into the scanner. A full page takes less than 10 seconds to scan and you can scan 300 pages before needing to recharge the battery.

Xerox Mobile Scanner can handle virtually any medium, including paper, plastic cards, business cards, receipts and photos. Your scanned items can be saved to the included SD memory card or a USB flash drive. Alternately, if you attach the scanner to a smartphone, your scans are saved to the phone's internal memory.

Receipts

Anyone can use it. Everyone will want it.

As consumers, we have a lot of paper in our lives. We also have a common desire to keep it organized and be able to easily find it and share it when needed. However many of us have been hesitant to try scanning it because of the fear that it will be complicated, difficult to manage and time consuming. We have changed all that. The Xerox Mobile Scanner leaves traditional, tethered USB scanners and capture devices far behind.

According to InfoTrends, “The rise in the number of mobile knowledge workers, which is approximately 70 % of the U.S. office workforce, is creating a need for technology that is compact, easy-to-use, and connects with the mobile devices that drive this new breed of office worker. The convenience of using a smart mobile device to capture a receipt, a signed contract, or an invoice is unmistakable. Xerox Mobile Scanner is a new generation of scanner that is sure to take “mobility” even further as the number and needs of the mobile knowledge worker begin to shift and increase.”

Contents

- Mobile Scanner SD
- Bonus software CD
- 2GB SD memory card
- Carrying case
- Recharging/data cable and AC wall adapter
- Cleaning and calibration sheets

Xerox® Mobile Scanner SD Product Specifications

Model Number	497N01316
Scan Speed	10 seconds per page
Resolution	300 dpi
Smartphone and Tablet Support	Supports mobile devices with media storage including BlackBerry®, Android®, Apple® iPad® and iPhone®, and Windows® smartphones Removable Media Support.
Removable Media Support	USB Flash Drive, SD card (2GB SD memory card included)
Supported File Formats	Multi-page PDF, JPG
