# iPP 200 Series

## The intuitive countertop PIN Pad for PIN entry and contactless payment

- Accelerate secured payment at the counter with consumer facing contactless and PIN entry solutions.
- Integrate the very compact iPP 200 Series into any counter-space.
- Connect the iPP 200 Series to any countertop in a few seconds thanks to plug & play installation.

security

contactless

color display

Easy to integrate into any counter-space, the iPP200 is an intuitive PIN Pad with consumer-facing contactless & PIN entry solutions.

#### Highest Security

The iPP200 Series meets the latest hardware and software security requirements including: PCI-PTS 2.x and 3.x. Also complies with SRED and open protocol modules. The optional PIN privacy shield guarantees confidentiality of PIN entry.

#### PIN Entry and Contactless

Offering secured PIN entry and Contactless payment, the iPP200 Series also allows NFC new payment add-ons such as loyalty programs, couponing and wallets use cases.

#### Designed for Merchants

Trim and lightweight, optimized for fast check-out, the iPP200 Series is designed to meet merchant environment needs. Very compact, the iPP200 Series takes up minimum counter space. Color backlit display, 15-key keypad, and 4 function keys provide day-to-day convenience and comfort.

#### Enhanced Readability

iPP280 integrates a 4-line-display with adjustable color backlight to enhance readability for consumers.

#### Easy Connectivity

Integration with Ingenico ICT series has never been easier thanks to the iPP200 series' powered USB connection.

#### Telium 2

Powered by Ingenico, Telium 2 technology is the result of 30 years' experience in the payment industry. Secure, highly integrated and fast, Telium 2 is the world's best platform to provide payment services. It provides a fully scalable, reliable operating system embedded into the 20 million terminals deployed worldwide.
