MX 915

MAXIMUM PERFORMANCE. MINIMUM SPACE.

VeriFone's MX 915 delivers a rich media experience with a brilliant, 4.3" color display, powerful processor and generous memory. This elegantly designed, sleek and space-saving unit is NFC enabled and supports full motion video – driving new revenue opportunities while enhancing customer interaction.

SOPHISTICATED, FLEXIBLE, SECURE

- High-speed graphics processor and generous memory bring customer messaging and video advertising campaigns to life

- Crystal clear, 4.3" flush mount display

- Clean lines and modern, sleek design make a powerful statement – in the lane or on a countertop

- State-of-the-art stylus for a clean and sleek look

- Chemically-hardened screen, built for the long haul

- Linux-based OS and application development environment offer maximum flexibility

- NFC/Contactless support to quickly capture new markets as they evolve

- Large screen area efficiently accommodates optional signature capture along with scrolling account activity, branding and promotional offers

- Integrated, tactile, backlit keypad to speed customers through lanes while reducing errors

- Remotely inject encryption keys anytime, anywhere with VeriShield Remote Key option added

THE TOTAL PACKAGE IN A SMALLER FORM

- Ideal platform for a variety of value-added services, such as administrating loyalty schemes, gift card issuance and top-up services

- VeriFone HQ software simplifies device management and reduces overall support costs, all while easily integrating into your current environment. It offers device management, diagnostics and content management capabilities

- Web Development Environment (WDE) provides a unique combination of web technology and a secure payment framework for powerful and flexible application development platforms

- Supports end-to-end security with VeriShield Total Protect, secured by RSA, which eliminates sensitive cardholder data from the payment device and merchant infrastructure through tokenization

- Compatible with legacy or existing MX 800 series product solutions

Processor
400 MHz 32 bit ARM 11

Memory
128 MB SDRAM + 256 Flash
Flash is field upgradable via USB or SD

Connectivity
Connect I/O; Ethernet 10/100BaseT, USB host/device, Serial Interfaces RS-232, RS 485; IBM Tailgate; WiFi; Compatible with existing MX 800 Series; Cabling solutions

Display
4.3" (480 x 272)
65,536 Color, GFX Wide Screen
Capacitive/chemically-hardened glass
